

CARD AND ATM/CDM SAFETY TIPS

1. You should always protect your ATM card and keep it in a safe place.
2. You should not write your Personal Identification Number (PIN) anywhere and in any manner because someone can secretly record (steal) it, and you should avoid changing and using PIN numbers that are easily identified (numerical sequences, birth date, etc.) in order to prevent identity theft.
3. You should not give your PIN number out to anyone, including KREDIT's staff, friends and family, and do not reveal it to anyone by any means even though you are requested.
4. Please do not allow other(s) to stand behind or nearby you and make sure no one watches you key in your PIN number, when you use the ATM/CDM to conduct your business quickly and efficiently. You have right to ask them for a space to secure your transaction.
5. You have to pay more caution when you conduct transaction on the ATM/CDM.
6. If you are afraid of PIN code stolen, you should use your body and free hand to shield the ATM keypad during the transaction.
7. Please enter ATM/CDM premise once per each.
8. Please refer to "ATM & CDM User Guide" if you do not fully understand how to perform each function.
9. Please verify your transaction before pressing "continue or agree" button on the ATM/CDM.
10. When you have an issues, helps, complaints or other inquiries, please contact KREDIT's Call Center via phone number, 023 930 000, which is printed on your ATM card
